Finding the Solution

Tech-Hiring offered a dedicated specialist Account Manager to work on the number of specialist job roles.

- Used market knowledge and in house data base to work on multiple jobs
- Advertise the jobs on leading newspaper and job boards to attract the best talent.
- Carried out in depth phone and face to face interview with the candidates.
- Assisted candidates to relocate and smooth transition to new jobs.

As a result Tech-hiring successfully fulfilled the challenging requirements.

Client testimonials

I would like to take this opportunity to thank Inder, Priya and the team at Tech Hiring for their continued support. We have worked together on some difficult employee resourcing requirements, primarily because we are a unique Company with defined, requirements, and high standards.

Despite this, the team at Tech Hiring have sourced excellent candidates for us. In a number of instances they have sourced candidates and made placements with us, when other agents have fallen by the way side. I look forward to working with Tech Hiring again at some point in the near future.
